The screenshot shows a Windows desktop environment. In the background, a web browser window is open with the address bar showing 'claude.ai/chat/3f7b8e66-4419-490f-9402-987d2...'. The browser has several tabs, including 'Step-by-step instructions - Clau...', 'Ask Gemini', and 'Rentitis Global Hack...'. In the foreground, a Windows PowerShell terminal window is open, displaying the output of a series of Git commands. The terminal shows that a file named '.gitignore' was added to the repository and committed to the master branch. The commit message was 'exclude ignore files'. The terminal also shows the progress of pushing the commit to the origin master branch.

```
Untracked files:
